## WSL,WSL-18,WSLP,WSLP-18 and WSKx Marking Removal

**DESCRIPTION OF CHANGE:** Part numbers starting with WSL or WSK that have a black overcoat will have the white part marking removed from the product. This marking will be removed from date codes 2309 on which is start of production date of March 1st 2023. From this point on the parts shall have just the black overcoat.

**REASON FOR CHANGE:** The removal of the part marking will improve the efficiency of the process and reduce the amount of time for AOI setup at the customer side. The current marking of these parts can differ slightly from each manufacturing location and this current difference leads to extra discussion of the products that can be avoided by removing the marking. Identification of the product can be obtained from the reel label.

**EXPECTED INFLUENCE ON QUALITY/RELIABILITY/PERFORMANCE:** This change will have no effect on the performance of the part or its form, fit, or function.

**PART NUMBERS/SERIES/FAMILIES AFFECTED:** Please see materials list on the succeeding page.
