Product/Process Change Notification PCN-071019-AGA

Date:	ID Number (MMDDYY): 071019																																												
Affected Products	Product Line: X7R, C0G, Z5U	Case Size: 0805 & 1206																																											
	Voltages: All	Tolerances: All																																											
	End Terminations: All	C-spec's: 7867, 7411, 7013 & 7040																																											
	Grade: Commercial																																												
Change	<p>An error in KEMET's order entry system (ETBF) allowed EIA 0805 and 1206 case size part numbers to be ordered using invalid packaging/reeling C-Specs. Note that orders were always satisfied using the correct packing process and materials even though an invalid C-Spec was being utilized. ETBF will now prevent order entry of part numbers assigned invalid C-Specs.</p> <p>No changes to existing catalogs, datasheets or Component Edge are being made as they have always reflected the correct information. Existing inventory does not need to be returned to KEMET. Inventory with incorrect packaging/reeling C-Specs should be depleted. This is simply an ordering nomenclature error and not a product quality issue.</p>
